

WASHINGTON — U.S. Rep. Mike Coffman, R-Aurora, released the following statement regarding the passage of the Red Tape Reduction and Small Business Jobs Creation Act.

The measure, which passed the House with bipartisan support, puts a freeze on all new major federal regulations until the unemployment rate falls below six percent.

“As a former small business owner, I understand first-hand how government regulations can make it harder for businesses to succeed.

“The Red Tape Reduction and Small Business Jobs Creation Act will give small businesses the certainty they need to grow and create jobs, especially during this economic recession. I hope the U.S. Senate will join our bipartisan coalition in the House to pass this important piece of legislation that will help our economy grow and get America back to work.”
